

REACH Statement of Compliance

Quin Global UK decants pre-blended adhesive into canisters and therefore meets the requirements as a Downstream User under the European Union Directive 1907/2006 on the Registration Evaluation Authorisation and Restriction of Chemicals (REACH). There is no requirement for Quin Global UK to register its adhesives.

Based on the information provided by our suppliers, Quin Global designates our products as REACH compliant for orders based on or after the date of the regulation.

If a product of Quin Global UK contains a Substance of Very High Concern (SVHC) in a concentration exceeding 0.1% weight by weight, then this will be listed on the Material Data Sheet for the product, in accordance with the obligations on us towards our customers under REACH.

We will continue to monitor the status of the candidate list as part of our on-going compliance activities, including the possible need under Article 33 of REACH to inform product recipients and consumers if an article contains more than 0.1% by weight per article of any substance that is added to the SVHC candidate list in the future.

This Statement of Compliance is periodically updated and maintained on our website at www.tensorglobal.com.
