

BML Microspheres

We produce a number of pre-wetted or damped versions of Expancel DE. These are produced by adding a suitable liquid which makes the Expancel very much easier to handle as well as easing dispersion.

BML Microspheres 806

Composition:

50% by weight Expancel 551 DE 40 d42
50% by weight Dioctyl Adipate (DOA)

BML Microspheres 939

Composition:

50% by weight Expancel 920 DE 80 d30
50% by weight Dioctyl Adipate (DOA)

BML Microspheres 941

Composition:

50% by weight Expancel 920 DE 40 d30
50% by weight Dioctyl Adipate (DOA)

Appearance

White slightly sticky powder

Store and handle with care due to pressure sensitive powder.

Other combinations of Expancel DE and suitable liquids can be produced as required.

We also produces a number of pre-blended Expancel DE and filler combinations produced to special order.
