Application and use	AME 6000 T-35 resin is recommended for marine applications and can be hand layed-up or sprayed-up. AME 6000 T-35 is designed as a premium skin coat resin and back up resin for high performance off-shore motor and sailing yachts, that remain in the water for an extended period of time.
Certificates and approvals	AME 6000 T-35 premium marine resin is approved by Lloyd's Register for construction of small crafts. The manufacturing, quality control and distribution of products, by ALTA Performance Materials, are complying with one or more of the following programs or standards: ISO 9001, ISO 14001 and OHSAS 18001.
Handling and storage	It is highly recommended that all material is stored at stable temperature under 25 C preferably indoors, and away from sunlight. Prolonged storage outside of recommended conditions can influence liquid resin properties like viscosity and gel time. It is also strongly recommended to mix resin thoroughly before use. Shelf life of AME 6000 T-35 is five (5) months.
