## **Reach (EG/1907/2006)** (Registration, Evaluation, Authorisation and Restriction of Chemicals) **Certificate of Compliance**

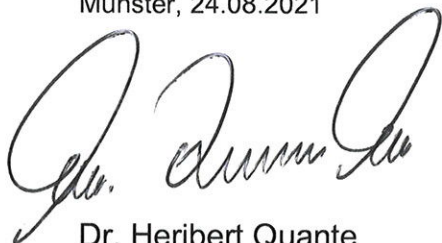

The companies of the Armacell group in Europe manufacture several different types of foams at different manufacturing plants.

Articles as defined by REACH (Article 3(3)) are exempt from registration as long as they are not intended to release a chemical substance. To the best of our knowledge all our foam products meet the definition of "article" according to REACH.

We confirm that all products produced by Armacell in Europe does not contain any substance listed in REACH annex XIV (in the version of June, 14<sup>th</sup> 2021) and annex XVII (in the version of August 19<sup>th</sup> 2021) and does not contain any substances listed in the candidate list of substances of very high concern (in the version of July 8<sup>th</sup> 2021).

The confirmations are made under due consideration of the relevant limits of 0,1 %.

Münster, 24.08.2021
